CARL H. HEINTZEMANN, PRINTER, BOSTON, MASS.

P R E F A C E.

THE general plan of this reader has been to grade the matter from the easiest and simplest phrases up to the ordinary style of connected narrative. With the exception of the first few pages, designed expressly to be used in connection with Post's Grammar, the matter has been mainly culled from the Volapük press of many countries. To give the name of the author and country in every case seemed impracticable, and has been done in the case of the longer articles only. A comparison of these signed articles will be found interesting, as showing how the Dutchman, the Italian, the German, the Swede, the American, the Frenchman, the Russian, and others, all express themselves alike in Volapük. Theoretically they would introduce idioms of their respective mother-tongues, thus making Volapük unintelligible to those not acquainted with the idioms of other nations. This argument has often been advanced by superficial critics, but in actual practice it is proved to be worthless, for experience has amply demonstrated that persons possessing sufficient intelligence to analyze a sentence into nouns, verbs, adjectives, etc., will assuredly translate idiomatic expressions into their logical meanings.

F. W. M.

LILÄDABUK VOLAPÜKA.

I. SUGIVS.

1. Tidel labom¹ domi. Man sedom penedi sone tidela. Son mana givom miti kate. Kat binom nim. Flen tidela labom buki. Buk labom flanis. Son flena sedom penedi tidele. Man binom tidel. Flen mana binom potan. Tidel potom penedis flenes mana.

2. Flens flenas obik binoms obiks. Logom domi okik, ab no omiki. Sevob oli ab no ofi. Sedom moni omes ab no obes. Kim sedom moni? Buks kiom binoms obsiks? Kisi tidel sedom ole? Kiofe lädas potan blinom penedi? Man kel blinom penedis binom potan. Dom at binom ut flena omik. Kats et binoms uts tidela. Dog at binom ot keli flen olik ägivom [*gave*] potane. Ob it sevob omis. Sevob potani e fleni omik; löfof eti ab no ati. Löfob mani et. Sagom das binos velatik ab no klödob osi. Kim labom buki omsik? Tidel labom omi.

3. Ek sedom bosi obe. Man nonik klödom osi. Flen semik oba sagom das buks bofik binoms olik. Balim binom obik, votim lönom sanele. Nims at valik binoms ofiks. Bofiks sagoms nosi. Sevob manis bofik.

¹ *Labom*, has; *sedom*, sends; *givom*, gives; *binom*, is; *potom*, mails or posts. Beginning with the second exercise, some knowledge of verb-formation is presupposed on the part of the learner.

4. Dom at binom boadik. Ployeg teldik binom neplagik. Dins valik kels nidoms no binoms golüdik. Krüt binom nefikulik, ab lekan binom fikulik. Silef binom delidikum ka kuped, e golüd binom delidikün metalas valik kösomik. Nelfan binom nim gletikün kel labom futis fol. Lif doga no binom so lonedik äs ut mana, e lif mana no binom so lonedik äs ut nelfana. Golüd binom luumo vätik ka platin.

5. Vödabuk flentik Volapüka labom flanis kiltum tels. Fol e fol binom jöl. Balmil jöltum züls, balsetelul telsekil, binom balüdel. Foldil numa tum binom telsekul. Kilsekil e kildil bal binom kildil numa tum. Balsefol e veldils tel binom veldil numa tum. Tonab balsid lafaba binom J. Sedom balido gasedi, telido potakadi e kilido penedi. Sedom gasedis kilna. Fran flentik binom luldil doaba melopik. Doab melopik binom folna völadikum ka mak deutik. Sedom penedi kilidna. Vöds mödik nelijapükik laboms malamis telik, kilik, e folik.

II. TELAPÜKOTS.

Kisi malos seilön ? — Seilön binos gepükön ute kel pükomen lisäl.

Kim vilom vedön bäledik ? — Alim vilom vedön bäledik, ab nek vilom binön bäledik.

Li-studol Volapüki ? — Studob omi sis yel bal.

Li-istudol püki votik ? — Si, ob e jiblod obik istudobs flentapüki büfo.

Pük kiom binom nefikulikum ? — Volapük binom nefikulikum ; binom so nefikulik das yel keli enömodob pegebom umo in plagam ka in studam.

Li-ostudols pükis votik ? — Na nolob nu, ab klödobs osi.

Kisi odunol ven ulenadol glamati? — Olemob vödabuki ven ukapälob valikosi in glamat, e ba büfo ufinob omi.

Kisi studols anu? — Studobs velibi Volapüka.

Konyugis limödik velib volapükik labom? — Labom konyugi te bal.

Fomis kiom velib at labom? — Labom dunafo mi e sufafomi.

Liko dedilon fomis? — Labobs in Volapük dedilis suköl: jenabid, mögabid, stipabid, büdabid, subsatabid e ladyekabid.

Kikod panemoms also? — Jenabid jonom jeni, äs *Sevob ofi*; mögabid e stipabid jonoms spetivo mögi e stipi, äs *Älemomöv domi if älabom-la moni*; me büdabid givon büdi, äs *Penolöd flene obik*; subsatabid binom ti ot äs subsat, äs *Penön binos gälod*; ladyekabid pagebom ofeno kelöp kanobs i gebön ladyeki, äs *Elogob jipuli ko logod ledöl*.

Kis binom timafom? — Timafom jonom kiüp din padunom.

Timafoms kiom sbinoms in Volapük? — Patüp, kel binom nuik: dlinom vati. Pätüp, kel binom in feголүp: ädlinof vini ädelo. Petüp, kel binom ti ot; edlinob kafi. Pitüp, kel binom büfo pätip e petüp: ilemom jevali büfo älogom omi. Patüp jonom das din podunom u, ozitom in füdet: openoms omulo. Putüp pagebom neofeno e malom das bos ojenos pos votikos: unolof valikosi ven ologof oli denu.

Timafoms kiom pageboms in stipabid e mögabid? — Köso mo te tel, pätip e pitüp.

E in ladyekabid e subsatabid? — Kil pageboms, kels binoms patüp, petüp e potüp. As sam; binos gudikum löfön e pölüdön ka nevelo elöfön; u, binos gudikum odeilön ka deilön.

Givolös samis gebama ladyekabida. — Binob jäfik, laböl mödikosi al dunön: etuvöl glamati, ebeginof studön; potakads tel pogepeköl binoms su tab obik.

Liko gebon büdabidi? — Büdabid labom te patüpi in gebam kösömik. Foms tel sibirons; balim al büdön, äs blinolöd obe jukis obik, e votim plütikum, al begön, äs gep-ükolös penedi at.

III. PÜKEDAVÖDS.

Löf binom e mekom datuvälik.
Tim binom sanel gletik.
Kapäl binom silef lifa; löf binom golüd lifa.
Man kel no mostepom ai, golom suno bäkivedo.
Löfans mona binoms, äs mon: düfik, kalodik, stenik.
Lons kömoms de mans; süds gudik de voms.
Sap, löf, valüd e mon pebalöl vobädoms gletikünosi in vol.
No hetolös nefleni, ab te pökis omik.
Lenadolöd in yun, dat kanol tidön in bäledüp.
Lün gudikün no yufom uti kel no vilom logön.
Binos gudikum deilön stimiko ka lifön nesnatiko.
Ut kel dunom nosi no pöloom, e lenadom pölölo.
Kelöp kat mobinom rats pledoms.
Dog kel vaulom no beitom.
Ut kel givom al getom givom nosi.
Ut kel no ebinom solat gudik obinom nevelo katan gudik.
No vedon tidel ünü del bal.
Cuk lifik binom gudikum ka lein nelifik.
Hel bal jilöfana lenzugom umo ka xols fol.
Lol no sibirons nen stigs.
Seilön binos gepükön ute kel pükom nen lisäl.
Ut kel no löfom vini, vomi e kaniti blibom fopel du lif
lölik oma.
Sev oka it ebinom ai stab gudikün tugas valik.
Ut kel labom nosi no dledom lapinelis.

Begin valik binom fikulik.
Klödon viliko kelosi vipon.
Me vobäd lesevon vobeli.
Böde alik smabed oma jinom jönik.
Binos nefikulikum mekön läbikis ka binön it läbik.
Nedaniks binoms uts kels luvokoms üno dö nedanöf
menada.

Man alik nulik tidom oli sevön flani nulik binuga olik.
De bads tel välonöd smalikäni.
Del binom nevelo so lonedik das vendel no kömom.
Rat binom pöfik kel sevom hogi te bal.
Lilädön e no kapälön binos plaudön e no sovön.
Vitön släni binos lekan gletikum ka dagetön lobi.
Cil pefiledöl dledom fili.
Neläb nonik kel no blinom i läbi.
Gud bal kanom sibirön in bad: jem demü edunön omi.
Al benodön, ut kel givom mutom fögetön suno e ut kel
getom nevelo.

Balikug e kleil patuvoms ai in pükot mana plobik.
Vun nevelo pasanom so gudiko das vunad no palogom.
Glem binom ai gudikum in feil nilela.
Givön konsäli fopes binos gifön vati su gan.
Do jigok binof bleinik, tuvof gleni.
Lägon tifelis smalik; glidon gletikis ko stüm.
Mans sapik pökoms i.
No valiks kels visitoms glügi binoms sanikels.
Nün badik paklödom ai suno.
Tidel lenadom umo in jul ka pul dutikün.
Cils binoms lieg mana pöfik.

V. KONILS COGIK.

Jimatel literatik.

Matel: "Mit at peloetom so mödo das no kanom pafidön."
Jimatel: "Ebinob vemo jäfik penöl laltügi dö kuken, plo gased, e äfögetob das äbinom in fön."

Jenö!

A: "Sagon das Liegan, kel labedom doabis telbalion, äbeginom lifi nen sentab bal in pok okik."

B: "Atos no binos makab. Ob it äbeginob lifi nen pok sembal."

Milags Nata.

Of: "Lio milagik Nat binom! Lio gletabidik! Lio kobotonik!"

Om: "Si: planil smalikün e sök pülikün sägo labedoms nemis latinapükik."

Vödem pötik.

Pädal äläbadom mateki mana bäledik yels mäls e voma de yels vels. Ävälom vödemi suköl biba al pükat: "God fögivolös omis, ibo no lesevoms kelosi dunoms."

Plagik.

Sanel: "Ah, jifeilan, plönol demü reum e deno golol ko futs nüdik in kalod at. Atos binos jekik. No li-labol stogis?"

Jifeilan: "Lesi, söl dokel, ab golüdamon obik binom in oms."

Däm nonik.

Vom (vutik): "Söl fotel, dog olik efidom loeti lölik oba."

Fotel: "Li-si? Li-loeti lölik? No dledolös. No odämos dogi."

Okasükik.

Tom (betikäliko): "Ethel binof vomül svidik; elilob nevelo ofi sagön bosì badik dö pösod sembal!"

Maud (badugiko): "Ni ob. Nevelo elilob ofi pükön dö pösod sembal, sesümü ok."

Nog gudikum.

Läd balid: "Matel ola, li egivom ole kidi as legivot kritazälik?"

Läd telid: "No, ab matel ola edunom also!"

Nem selednik.

In Alaska, nem keli lödels givoms filavine binom *oo-mi-ak-puck-pe-chuck*. Labobs nuläli gletik nolön liko sepükoms omi na elaboms dlinis bals u balsetel.

Nen dot.

Tidel äsäkom vöno cili, "If vilol golön al sül, kisi mutol dunön?" Cil ägepükom foviko, "Deilön."

Lukiemel.

Lukiemel tälik yelatuma lätik isükom du yels tels medi al meköm golüdi ko koped. Ven äklödom etuvön fino kläni gletik, ägolom al Roma al nünon datüvi omik pape. At älasumom fleniküno datüveli, e ven lukiemel äsäkom mesedi pap ägivom ome saki gletik e säbi bigik, sagöl, "Bi kanol meköm golüdi nedol te böbi al lesävön omi e vafi al jelön omi ta tifels."

Nims nenatik.

Deutan sembal, logedöl sköti zifa Venezia, äsäkom kofiko lödeli sembal: "In fot kiom tuvon leinis ko flitäds?" "In fot ot," ägepükom tälänan, "kelöp binoms gils ko kaps tel."

Fefikum.

Vilgin bäledik, al jigam yunik: “Ab li ekonsidol, Klara löfik, lio fefik mat binom?”

Klara: “Si, jinök oba, ab i ekonsidob das no pematön binos mödo fefikum!”

Plüt pulila.

Yohanil padadukom kudiko, äs kanon logön. Semdelo äsiedom su kien fata omik in lelodavab vemo fulik. Vom sembal änutlidof; “Läd,” äsagom sustanöl, “lensumolös siedi obik!”

Milagnik!

“Binos selednik! Plofed B. nolelik ematom vomi leigo pekulivöl äs ebinom it. Bofiks pükoms luüno pükis mäl, e in pük nonik kapäloms balvoto.”

Med al rivön diseini.

Jimatel: “Bevü matalenuns gaseda at binoms denu jikukels mödik kels pematofs.”

Matel: “Natiko; if devel pöfik sembal vipom getön jikukeli gudik in dels at, mutom matön ofi.”

Vised jidünana.

Vomül Arabella: “Baonan X. ovisitom adelo obi; in klot kimik ojonob gudiküno obi ome?”

Jidünan: “In klot no nog pepelöl; in tim pötik dugolös pükoti al atos!”

Käfik.

Isaak kömom gäliküno se jul domo, ab no sagom vödi bal dö kod gäla okik. Pos zendelafid fat golom denu al jäf e Isaak kopanom omi boso. Na egekömom al mot, sagom ofe: “Mot, egetob adelo in jul noeti ‘sikik’ e siedob nu su plad balid.”

“Pul ladik,” mot gesagof, “labol is maki. Ab kikod no esagol atosi foviko, ven fat ebinom nog is? Egälolöv vemüno omi!”

“Esagob osi ome du gol,” Isaak gesagom, “e egetob i de om maki.”

Kodü fitam.

“Söl Olsok, flen oba, ebinol vemo dlinamik. Liko ejenos?”

“Bi egolob in laned al fitön: aiven efanob fiti, edlinob filavini nemödik se flad oba, al zelön zidi at.”

“Efanol täno fitis lemödik?”

“Leno: ab sötob i sagön ole das aiven no efanob fiti, edlinob boso al tlodön obi.”

Viens Kilulik.

Devel sedom vienis vifik
Kels sutovoms ba gunis;
Ab lanels sedoms püfi virik
Al fulön mana badik logis.

Bod tu mödik,

Du yels vönik meina in California, pesagos das vöno ven meinels seitopa änedoms lifamedi nulik, äkonletoms bevü oks doabis telsekul, e äseväloms kopaneli bal al golön al lemagem nilikün e lemön dinis panedöl.

Fag äbinom za leils kils, e kludo man at no äkanom gekömön jü del suköl.

Neit sembal, na man igekömom de bal tävas okik, eblinöl ko om sekis ninlemota okik, meinels valik äkolkömoms nilo al logön kelosi kopanel omsik ilemom.

“Kisi elemol?” äsäkoms; “sagolöd obes kelosi elemol.”

“Elemob filavini suämü doabs telsefol, e elemob bodi suämü doab bal,” ägepükom.

“Develö! fi! vö!” äluvokoms tagedo. “Liko ogebobs bodi so mödik?”

VOTAFOMAM E BAFOMAM KALEDA.

Kudadin paxämöl nu fa nolavaklubs mödik in läns difik binom votafomam e bafomam kaleda.

Stem e lektin enüloms so vemo popis valik das nedoms balikön, bafomön valikosi kel kanos pagebön plo fetans bevünetik. Potaklub valemik e monaklub pejafoms kodü ned at. Bafomam kaleda binom dil nulik vobäda at püda e balifa, kela volapük löfik obas obinom lefulam. Yeg at mutom sikodo nitedön obis.

Du yel 1888, nets valik esedoms palesedelis al kongef in Washington (Pebaltats, Nolümelop), kiöp ejäfon düpi valemik.

Offense, n., nof.
Offensive, a., skänik (shocking):
nofik (repugnant).
Offer, n., lof.
Office, n., bür (bureau): cäl (vo-
cation).
Officer, n., fizir (military): cälan
(official).
Offshoot, n., gelmin.
Offspring, n., dekömäb.
- Often, ad.**, ofen.
Oil, n., leül.
Old, a., bäledik (aged): vönik
(former).
Old age, n., bäledüp.
Old man, n., bäledan.
Old times, n., vönüp.
Olive, n., leüluk.
Omelet, n., nögagek.
Omission, n., nedun.
Omnibus, n., mofib.
Omnipotence, n., lemek.
On, p., su (upon): dö (concern-
ing).
Once, ad., vöno (formerly): balna
(one time).
One-eyed, a., balogik.
One's, pr., onik.
Onion, n., beb.
Only, a., lebalik (single): soelik
Only, ad., te. [sole).
Opacity, n., nedulogöf.
Open, v., manifön (broach): sä-
kikön (unlock): manifön oki
(unfold).
Opera, n., lop.
Opera-house, n., lopateat.
Operate, v., bitön.
Opinion, n., ced (judgment):
niludam (suspicion).
Opponent, n., tael.
Opportunity, n., letim (occa-
sion): pöt (chance).
Oppose, v., tapladön (be opposite
to): tapükön (speak against):
tadunön (contravene).
Opposite, n., tadil.
Opposite, a., etaflanik.
Opposite, ad., viso.
Opposite to, p., visü.
Opposition, n., tadun (contra-
vention): tapük (protest): tae-
lef (opposers).
Oppression, n., lepedam.
Optics, n., litav.
Or, c., u.
Oral, a., mudik.
Orange, n., boan.
Orange-color, n., linyelib.
Orang-outang, n., fotamen.
Oration, n., pükat.
Oratory, n., püköf.
Orbit, n., fegon (course): logan-
invag (of eye).

STANDARD
VOLAPÜK TEXT-BOOKS.

Post's Volapük Grammar. Full Cloth, 75 cents.

"A valuable, — one may say invaluable, — feature of this grammar is an alphabetical list of the principal conjunctions and prepositions, with their use clearly illustrated, and thus the severest difficulty of the language is made plain. The idiomatic forms of English are lucidly converted into their Volapük equivalents, and with this guide to the language one may confidently undertake its study, and speedily master it. — *Boston "Journal of Education."*

"The titles 'Force of Prepositions,' and 'English Prepositions with Volapük Equivalents,' and similar titles touching conjunctions, embrace alphabetical lists of these two parts of speech, with lucid illustrations of their use. This grammar will be welcomed by the growing number of those who are disposed to study this invented language. The merits of the language have been recognized in his country in very many places, a notable instance being its adoption by the Boston School Committee as an elective night-school study." — *Zion's Herald.*

"We advise all intelligent students to buy Mr. Post's grammar, as they will find much of value therein." — *Volapük* (official organ of the Mass. Volapük Club).

"We feel safe in highly recommending the book." — *Gased Bevünetik.*

Volapük Reader. Full Cloth, 75 cents.

By FREDERIC W. MITCHELL, with English-Volapük Vocabulary of 5000 words.

Post's Dictionary of Volapük. In press.

The book will be handsomely printed, on fine paper, and its features will be *completeness, distinguishment of parts of speech, indication of root sources*, and, on the English side, parenthetical indications of the senses of definitions of words having several significations. This latter feature is an indispensable convenience, saving necessity of cross references, and is illustrated by the condensed vocabulary in this **READER**. The dictionary will contain 35,000 words and the price will be *two dollars and fifty cents*, but to advance subscribers the price will be *one dollar and a half*, and forms on which to write such subscriptions may be had on application to

ALFRED A. POST,

62 BOYLSTON STREET, BOSTON, MASS.

DICTIONARY OF VOLAPÜK.

Volapük-English. English-Volapük.

By M. W. WOOD,

CAPTAIN AND ASST. SURGEON, UNITED STATES ARMY.

Over 300 pages, 12mo; elegantly printed and bound.

PRICE, \$2.50.

THIS great work, on which the author has expended a vast amount of labor and care, is at last completed. The final revision, made necessary by the recent appearance of the fourth edition of Schleyer's Volapük-German Dictionary, has added some thousands of useful definitions, and the work embodies the latest authority and the fullest information. It gives more words and definitions than any existing dictionary.

The author has not only availed himself of the dictionaries of Volapük published in various languages, but has added many useful derivativs found in the writings of the most approved authors. He has had the advice and co-operation of eminent linguists of various nationalities. I feel that I can commend Dr. Wood's Dictionary to the American public as a scholarly and an admirably executed work. It may be relied upon as a Standard Dictionary of Volapük.

Each page contains a section of the Volapük-English part and a section, alphabetically corresponding, of the English-Volapük part. This ingenious arrangement (first introduced in Bellows' celebrated French-English Dictionary) greatly facilitates search and comparison.

Sent by mail on receipt of price.

CHARLES E. SPRAGUE,

1271 BROADWAY, NEW YORK, N. Y.

One Volume, 12 mo.; 128 pages; heavy paper. PRICE, \$1.00.

HAND-BOOK OF VOLAPÜK,

BY CHARLES E. SPRAGUE,

Member of the Academy of Volapük; President of the Institute of Accounts.

This book comprises—

1. An introduction explaining the purposes, origin and history of Volapük and of the Volapük movement.
2. A grammatical exposition of the structure of the language. The pronunciation is taught by comparison with the sounds in English. The grammatical distinctions, number, case, gender, tense, etc., are then taken up in short lessons, interspersed with reading and translating exercises, illustrative of each lesson. As far as possible no terms are used except such as would be familiar to a person fairly versed in English grammar. Etymology and syntax are taught together, and a synopsis is then presented which exhibits the whole plan of Volapük grammar on a single page.
3. The order or arrangement of words is carefully explained.
4. The derivation of words, the selection of radicals, and the formation of new words by composition, by prefixes and by suffixes.
5. A statement, in Volapük, of the few changes made by the Second Annual Congress.
6. A selection from Schleyer's writings, analyzed so as to show the process by which a sentence is deciphered by one to whom the words are unknown and who has to search for them in a dictionary. A skilled linguist could acquire a knowledge of the structure of Volapük from this portion alone.
7. "Spodam": Commercial Correspondence, comprising several model letters.
8. "Lilädäm": Reading Lessons, each piece by an author of different nationality; with a portrait of Father Schleyer.
9. Vocabulary: Volapük-English and English-Volapük, the two parts interwoven, on a novel plan; defining all the most usual root-words and giving command of several thousand words.
10. Key to the Exercises, for correction of homework.

To make this book accurate, authentic and easily understood, no pains have been spared by the author, who besides having studied Volapük for several years, is experienced as a teacher of languages and as a student of methods of teaching.
